

Inquisiq Studio Licensing

March 2010

Inquisiq Studio is an advanced web-based e-learning authoring system offering high flexibility and an abundance of features to collaboratively create quality e-learning content.

To create content using Inquisiq Studio, a named user license must be purchased for each **author**. However, not every occasional user is required to purchase a license.

Users that do not develop content directly, such as Reviewers and Viewers, may be added completely free-of-charge. Such users obtain the rights to view projects and assign tasks to other team members.

ICS Learning Group offers several different licensing options for Inquisiq Studio:

- **Monthly Hosted Solution:** a monthly based license (ICS provides hosting and software maintenance is included).
- **Annual Hosted Solution:** a low-cost annually renewed license (ICS provides hosting and software maintenance is included).
- **Installed Solution – Perpetual License:** pay a one-time fee for a perpetual license. Can be hosted on your server or ours. This solution requires an annual support and software maintenance agreement. ICS hosting plans available.
- **Technical Support** is available for all plans for \$295/year per license (author).
